

In partnership with **Movex**

people and products you can rely on

## The people for conveyors

A comprehensive range available from stock for next day delivery makes Oadby Plastics the best choice for your conveyor requirements

## Leading supplier

### Supplying world leading products

For over 40 years we have stocked and supplied conveyor components, chains and modular belting to the food, beverage and engineering industries.

We are also the UK's leading independent plastics supplier. Our ability to supply conveyor products along with machined parts allows us to create bespoke, high quality solutions for our customers.

## Stockholding

We are constantly developing our delivery programme and have a core range of products suitable to meet a wide range of requirements.

Supporting all conveyor applications, we aim to provide you with a range of unrivalled quality with a service to match.

We have a core range of items available for next day delivery. Please see our website for more details | [www.oadbyplastics.co.uk](http://www.oadbyplastics.co.uk)

## Values

We are passionate about our business, customers, employees and the brands our supply partners have built. We will continue to develop our business based on values, reputation and strength to satisfy customer requirements.

Our business is not simply about products; it is about people too. Many of our staff have grown up with the business, so we understand the products, the marketplace and most of all, you the customer.

**Movex Curves**

**Movex Curves** are designed to offer better conveyor performance. Suitable for steel and plastic chains, our curves are produced with computer controlled machines with a smooth chain guide surface.

Available in different materials and designs:

- Standard UHMW-PE (standard applications)
- BluLub (limited or no lubrications)
- RS (high performance)

**Movex Curves** produced in RS and BluLub materials need less energy and with a lower coefficient of friction, improve product stability and chain wear-life.

These curves are perfectly interchangeable with the standard design.

**RS | BluLub®**

## PROFILES UHMW-PE and **BluLub®**
